

# WHY ARE WE DANCING?

why aren't you screaming?

# FUNK THE 7 WAR

Our government spends \$1.3 trillion a year on the war machine.

The uncontrollable greed of bankers and financiers enabled by Washington deregulators and free-market ideologues has driven America into a seemingly endless financial crisis, pushing us to the edge of the worst depression in memory.

While nine million families risk foreclosure and forty-seven million Americans lack health care, college administrations hike tuition forcing millions of students out of school. Does that sound like national security to you?

We are the students, and we're fed up with this system that values corporate profit over the dignity and lives of people in America and around the World.

**Project for a New American Century** is a neo-conservative think tank with close ties to the Bush administration that pushes for complete global dominance for the US military. **Lockheed Martin** contributes heavily to the Democratic and Republican parties, and in return takes in \$65 million a day from the federal government to develop and construct war planes and bombs. **Military recruiters** prey on people of color and working-class youth, enticing them into service with promises of job training and college tuition, leaving all too many with missing limbs and shattered minds, saddled with debt and trauma and living on the street.

**Blackwater USA**, now known as **Xe**, is the largest private military contractor in the world. They are given billions of tax dollars to send overfunded mercenaries to Iraq and to train American police in murderous paramilitary tactics.

**Halliburton/KBR** has taken billions in our tax dollars through corrupt no-bid and cost-plus contracts for the construction and maintenance of military bases and other infrastructure in Iraq. **American Petroleum Institute** is the research and lobbying arm of the petroleum industry, that drives politicians' thirst for oil and resource wars.

We're dancing down K Street because this is the heart of the military-industrial complex in Washington. The political and business institutions listed here are responsible for profiting off the death and disruption of people all over the world, in Iraq, in Afghanistan, and right here in America.
