Assemble your fly crew, dust off them dancing shoes, and practice your moves. Funk the War is a rowdy youth and student power dance party. When our boss rumbles, empires crumble. Check the website for info on upcoming trainings and dance party mayhem.

FUNK THE WAR
BAD ROMANCE
MARCH 19TH, 3 PM
FARRAGUT SQ. (17TH & K NW)

- No love for corporate criminals
- End the War on Terror and commit to our future
- Sustainable community recovery, not recession empire
- Free education & green jobs, not military recruitment

Obama owes his election to the young people who fell in love when he promised to end the affair between government and big business. 2 years later, he's cheating on us with the same war profiteers and climate criminals who've been doing the nasty with Congress and the Presidents before him.

War is betrayal. Obama is expanding the War on Terror in the Middle East & Central Asia. He's taking advantage of record unemployment and college costs to drag young people into endless resource wars.

We're caught in a bad romance! We want more than a new face on the same system. We can't have a future together if Obama keeps playing us like the last guy did.
