

FUNK THE WAR ON THE POOR

WE INTEND TO STOP THEM.

FUNK THE WAR ON THE POOR

WE INTEND TO STOP THEM.

See <http://stopi69.wordpress.com> for more information.

Why are we jamming traffic, dancing in the street, and making a ruckus? We're doing it to point out to the public the people responsible, both ideologically and financially, for Interstate-69, toxic infrastructure that will:

- Evict Over 400 families from their homes along the 142 miles route in Indiana alone (this number excludes families evicted in other states).
- Overrule the wishes of the public in favor of the wealthy and powerful: The department of transportation's own study shows that over 70% of people in Indiana oppose the new road, and an independent study places that number in the 90's, yet the governor is still pushing the project.
- Strengthen NAFTA, the "free" trade agreement that punished the poor and lined the pockets of the rich. I-69 is part of the "NAFTA Superhighway" plan, which includes similar infrastructure projects in South America (IIRSA), Central America and Mexico (Plan Puebla-Panama), and Canada (Atlantica). It is meant to provide multi-national corporations a more cost-effective way to exploit all three countries, and allow them to cheaply exploit the natural resources of Latin America.
